## Douglas County High School Track Douglasville, GA

### PROJECT PORTFOLIO

Product:  
Contractor:

System 4020, System 2000, 494Q grates, catch basins  
StarTrac Enterprise, Southfield, MI

Funded with \$3.2 million from the city's general fund, improvements to the 90-year-old Kezar Stadium were largely concentrated on the field with improved drainage, a new pole vault and long jump areas and replacing the old asphalt track with a new 9-lane rubberized surface. The improvements took 7 months to complete.

deteriorating due to improper drainage on the site.

The ACO Sport System 3000 slot drain was installed around the inside lane of the new track to prevent issues in the future.

The old track surface had developed big potholes and was quickly
